From the Classroom to the Workplace: Industry-Relevant Programming for Professionals
du.edu/professional

Workshops • Certificates • Boot Camps

The crux of CPD is **meaningful creative partnerships**; we innovate with industry, community, and educational partners to **address the needs of professionals** in the Rocky Mountain region.

Our programs are intellectually robust, holistically oriented, and foster **lifelong learners** dedicated to the public good.

Our world is at a crossroads; challenges are changing and the “traditional student” is transforming. We serve **working professionals**, veterans, parents, entrepreneurs, and change agents: our students are a reflection of our **diverse and global 21st century world**.

CPD brings these various roads together and creates a new path of learning.
